

INTELLIGENCE COMMUNITY STAFF

*Ed - This looks good. As can be seen from the copy of the report, the format is not for possible applications. I have*

Chairman, SECOM:

Attached for your review is a draft outline for the "annual" UDAC report. Actually it is:

- a. The formation of UDAC
- b. Comparative analysis FY84-85
- c. FY86 initiatives

The introductory history will be drawn from existing documentation, dates, etc., with editorial explanation and linking. The Comparative analysis is supported by charts, and need only be translated into meaningful narrative form. The third part covers the initiatives already underway and accomplished as UDAC approaches its first anniversary of operational implementation, which I date from:

- a. The full clearance of the FBI designee to serve as chief.
- b. The beginnings of full time operation of the Unauthorized Disclosure Register for new input.
- c. The Community team which did retrospective compilation and verification of FY84 and early FY85 data.

You may wish to consider additional under III or as a separate IV in light of recent policy decisions.
